Profile

Web developer and formerly Agricultural engineer and quality manager who is passionate about programming and technology. Enjoying building projects after a Web development course. My preferred tool is python but I'm enjoying building projects, whether it be front-end with HTML, CSS, JavaScript/react.js or back-end dev with Ruby/RoR. Additionally I can face basic design challenges with my artistic side.

Education

2003-2011

Agriculture engineer
Al-Furat University - Syria

2016-...

Computer Science
Kiron open university

2018

Web Development Course
CareerFoundry.com

Skills

Computers and IT Programming : Ruby/Rails, Python/Django , Javascript/React, HTML, Css

Office : windows office , LibreOffice

Graphics: Photoshop , GIMP, Blender

Basic windows and Linux system Administration.

Basic computer maintenance and PC's building.

Languages English: fluent , German : intermediate(b2), Kurdish : native , Arabic : native.

Projects

Worked on couple of projects from front-end to back-end before and during the Web development course of CareerFoundry. The course consist of two main projects beside couple of optional projects. The two main are a front-end portfolio site and a back-end E-commerce website with Ruby on rails.
